

# Addition to the Staff College Bulletin

## **Meeting the Needs of All Students Using Differentiated Instruction: Secondary 6-12**

Every student should be provided with the tools he/she needs to meet high expectations in mathematics. This E-workshop offered by NCTM identified possible student barriers to learning and useful strategies in addressing these barriers. Classroom Activities will provide staff with suggested modifications to address the varied needs of all students within the mathematics classroom.

Time: 4:00 – 5:30

Presenter: Marian Palumbo

Course Hours: 3

Dates: February 8 and March 22, 2010

Location: Board Office

**Course ID # 69**

## **Power Point**

The course will show participants how to prepare a slide presentation including: how to format text; use multi-level bullets; insert and resize images; animate text and images; add transition effects; add sound effects; insert a spreadsheet; insert an outline from a Word Document; insert a graph; create an outline from a Power Point presentation; print handouts, slides and notes, and show a presentation.

Time: 3:30 – 6:30

Presenter: Fran Calvaruso

Dates: February 16 and March 2, 2010

Location: Ridge High Rm. 713

Course Hours: 6

Course ID # 70

**Implementing Technology in the Self Contained Classroom**

There are many different ways to use Microsoft Office or Smartboard software to create individualized curriculum for instructional purposes. This workshop will review ways to use programs such as: Notebook software, Microsoft Word and Microsoft Power Point. There will be a focus on creating Power Point presentations to teach expressive and receptive skills, using Word to teach sight words, and exploring different functions of the Smartboard.

Video Modeling is used for various aspects of instruction. This workshop will review current methods for creating effective and precise videos when teaching imitation, chained tasks, play scripts and drawing. Components of this workshop include: voice over, editing, video digital camera, still digital camera, laptop camera, inserting text and graphics.

Time: 3:30 – 5:30

Presenter: Marcus Lozano and  
Mark Mautone

Course hours: 6

Dates: February 15, 17 and 18, 2010

Location: Cedar Hill Library

**Course ID # 71**
