

Meet the Assistant Principal

Jim Oliver

Liberty Corner School is an exciting and vibrant learning community where students, staff and parents work together in partnership to benefit students. Our dedicated staff works diligently to actively engage students in studies through various instructional techniques designed to meet the needs of all learning styles in a nurturing and supportive environment. We have high expectations for our students and encourage them to become responsible, independent and productive citizens while developing a love of learning that will last a lifetime.

As an educator I firmly believe that all children can learn. At Liberty Corner School a collegial and supportive environment is encouraged where teachers have opportunities to understand students' strengths and individual needs. Teachers, parents, students, and administrators are part of the team focused on providing best practices for student success.

Creating a learning environment where students achieve their maximum potential is essential to ensure that all students can get the best possible education. Such an environment enhances students' motivation to learn. Mutual respect and acceptance must be reinforced to maintain a positive school climate. Character education programs provide students with the knowledge of how to treat others and work collaboratively in our community. These programs are used to instruct and guide students and teachers in their daily interactions, which also contributes to a positive school environment.

A vital part of the Liberty Corner School formula for success is the tremendous support given by our parents. The PTO's active involvement provides the children with many learning experiences and enrichment opportunities. The cooperation and support of our parents contributes to the success and sense of community that thrives at Liberty Corner School.

The PTO is an energetic and supportive group, dedicated to enriching and enhancing the academic and social climate of our school. Parents are vital to their child's success in school. Establishing a home/school partnership acknowledges the role that parents and family play in their child's intelligence, competence and achievement.
